Main Menu

Single Race

Get down and dirty against the best FIM (Federation Internationale Motocycliste) riders. The choices of bikes, courses and riders are up to you. You may also choose between Motocross (MX) racing, which is done on large outdoor tracks and Supercross (SX) racing, which takes place on specially designed arena tracks.

Single race options

Number of laps – 4, 8, 16 (MX) or 6, 10, 20 (SX)

Number of Riders (SX only) – 1, 6, 10

AI Challenge – Easy, Intense, and Severe (Easy is the default setting)

Invisible walls on/off – The invisible wall feature will prevent you from flying off the track while airborne.

Records such as fastest lap, etc. can be saved onto a MEMORY CARD (8MB) (for PlayStation®2).

Freestyle

The clock is ticking so pull as many stunts as possible within the time limit. The more extreme stunts will win you the most points and earn the adulation of legions of fans. Get your name in the game by breaking the high jump or long jump records. When you first start a game only one arena will be unlocked. Once you've beaten the record number of points for each arena, the next arena will be unlocked.

For a list of stunts and their control combinations see page 17.

Championship

Championship is the heart and soul of MXrider. You will compete against the top riders from the FIM 2000 World Championship season. Work your way through several seasons of races, accumulating money and points as you go.

Challenge

In Challenge mode you will be given a specific objective to accomplish. First you will chose the level of difficulty: Easy, Medium or Hard. Each Challenge event has a specific rider, bike and venue. Completing a set of challenges unlocks one of the three bonus riders.

Multiplayer

You can play MXrider head-to-head against a friend. Challenge another player in Motocross, Supercross and Freestyle mode.

Options

Audio

Change the volume of the sound effects, menu music, game music, engine and speech. In addition you may change the output settings for stereo or surround sound as well as the order of the songs for the background music.

Camera Select

There are nine different camera views available in MXrider. In the Camera Selection menu you may turn any one on or off. If a camera is turned off that view will not be available during the race.

Replay Highlights

You may watch any highlights from previous races that you've saved to the MEMORY CARD (8MB) (for PlayStation®2).

Controller Configuration

Change the configuration of the controllers to suit your preferences.

Championship Mode

Battle the superstars of the FIM World Championship 2000 season in both Supercross and Motocross racing. The larger bike classes require more money than others, so earn as much as you can by winning races and keeping those team sponsorships.

Championship Mode Options

Difficulty Level – Novice and Expert (Expert difficulty features an optional qualification race which determines starting position.)

Novice Options

AI Challenge – Change the difficulty level of the computer controlled riders:
Easy, Intense, Severe

Number of MX Laps – 4, 8, 16

Number of SX Laps – 6, 10, 20

Invisible Walls on/off – The invisible wall feature will prevent you from flying off the track while airborne.

Expert Options

AI Challenge – Change the difficulty level of the computer controlled riders:
Easy, Intense, Severe

Number of MX Laps – 4, 8, 16

Number of SX Laps – 6, 10, 20

Season Standings – Here you can check your point totals and prize money

Garage – Adjust tire tread, suspension and engine

Practice – Run through the next course in this season with no competition

Sponsorship

After placing well in season races you will receive an offer of sponsorship from a racing team. Sponsorship comes with a monetary reward. Should you continue to win or place well in races, your sponsor will continue to write the checks. However, this money comes with responsibility and you must maintain the conditions as outlined in your sponsorship offer. Some sponsors require finishing first, others require only placing near the top.

The best way to get sponsorship is by winning races, yet performing stunts during a race will make you popular with the crowd, leading to more sponsorship offers. Performing stunts will also increase the amount of power boost available when you tap and hold the  button.

Selecting a Rider

Single Race

Use the up and down directional buttons to choose between the riders. Each rider has different amounts of agility, stamina, strength and aggressiveness. Choose a rider that best suits your riding style and abilities.

The rider is you. Assign a name, country and uniform to your new rookie rider.

Challenge

In this mode your riders are chosen for you based on the Challenge you are attempting.

Selecting a Track

In Single Race mode you can choose from the tracks available in either Motocross or Supercross races. Finishing first will unlock subsequent tracks.

Championship seasons are run on a variety of tracks with increasing difficulty.
